## Laser Detox & De-Stress Therapy!

Advanced Laser Therapy Clinics' ...**Detox & De-Stress Therapy...** programme is a single treatment **Drug Free** Laser Therapy specifically designed to...

**Immediately Reduce** physical, psychological and emotional stress & anxiety levels without the use of drugs and activate the detox (or elimination) organs for enhanced physical, psychological and emotional health.

**Advanced Laser Therapy Treatments** utilize the latest laser technologies to provide the safest, easiest and most effective stress relieving and detox programmes. A single 1 hour treatment is all that is required to... **Detox and De-Stress Today...**

**Low Level Laser Therapy (LLLT)** is a calming, relaxing & pleasurable experience (many fall asleep during Laser) which stimulates the brain's release of endogenous neuro-chemicals, our naturally occurring opioids (our **feel good** chemicals) to provide the brain with pleasure and comfort. The stimulation effect is immediate and builds over 24-36 hours or more and then levels out over a 6 week period. This provides the brain with the opportunity to stabilize and restart the natural, normal release of endorphins in an easy and consistent manner. The deeply calming and often euphoric effects of laser help lift and maintain energy levels and enhance our physical, psychological and emotional health and well-being.

**One Hour Laser Treatments** provide a fast, effective and relaxing therapy to recharge our systems and provide the vital support necessary for optimal ongoing physical, psychological and emotional health. Laser Treatments at 8-12 week intervals (or as preferred) calm, relax & support the central & peripheral nervous systems to alleviate the negative and harmful effects of stress, anxiety & other concerns of modern life. Laser Therapy helps us stay comfortably in control of our health and general well-being.
