Nicotine/Marijuana: *Stop Smoking Today...*

Addiction to the psycho-active narcotics Nicotine/Marijuana is recognised by health professionals as being as addictive as heroin. The psychological dependency associated with smoking can be even more challenging due to the availability and affordability of Tobacco and Marijuana. Most stop smoking programmes have little impact on the psychological aspects of smoking addiction. Most programmes are fear based or incorporate addictive nicotine gums, patches and inhalers or assume the addiction can be treated with harmful and addictive drugs! These approaches do not treat the psychological aspects of addiction; they do not directly address the psychological dependency on the drug and fail to deliver effective resources necessary to facilitate change and sustain long term smoking cessation.

Advanced Laser Therapy Clinics'... *Stop Smoking Today...* Programme is a multiple faceted, holistic **Drug Free** therapy specifically designed to...
